

## 5 O'clock Edition!

### THE TRIP IS ENDED.

#### President At Home This Afternoon.

#### TENNY WINS THE BROOKLYN.

#### Influenza Increasing in Rus- sia.

#### The Forest Fires Still Raging Fiercely.

#### President's Party.

By Associated Press.]  
ALTOONA (Pa.), May 15.—The special train bearing the Presidential party arrived at 9:50 this morning. The party stood on the rear platform and listened to cheers from the large crowds assembled. The President delivered a short address and was followed by Secretary Rusk.

PITTSBURG, May 12.—The Presidential train passed through here early this morning en route to Washington. But 17 minutes spent here. No demonstration.

HARRISBURG, May 15.—From Altoona to Harrisburg the trip was devoid of special incident. The ride through the picturesque valley refreshed the party, and when they arrived here there was no appearance of fatigue upon any face. It was 10:10 o'clock when the train rolled into the station and it remained here 15 minutes. Postmaster General Wannamaker took leave of the party here and boarded the train for New York, from whence his family sails for Europe tomorrow. When the train hove in sight cannon booming a Presidential salute of 21 guns. This was a signal to the great crowd gathered in the Pennsylvania railroad station which numbered several thousand people, and all pressed forward with cheers. Governor Patterson and other State officers boarded the train and greeted President Harrison. After an exchange of courtesies the crowd was addressed briefly by the President. He was followed by Postmaster General Wannamaker and Secretary Rusk. At the conclusion of speechmaking the train steamed toward Washington where it is due at 5:30 this afternoon.

#### London Gossip.

By Cable and Associated Press.]  
LONDON, May 15.—Postmaster General Raikes says the first Chinese and Japanese mails by the Canadian Pacific route arrived in this city yesterday. The time occupied in transmitting these mails was 36 days from Hong Kong, and from Yokohama 26 days.

The Standard, in an editorial this morning says: "We can only account for America's extraordinary zeal in pursuing the Chilean steamer Itata on the assumption that the government was delighted at having an opportunity retrospectively to justify its Alabama contention as against England. It is doubtful, however, whether this ingenious behavior can establish any new dictum in international law."

The influenza epidemic is seriously increasing in South Russia. In Russian Poland the disease has decimated the population of many villages. Influenza is spreading among the members of the English Parliament and 84 members of the Commons are now reported suffering from the disease.

#### For Defendant.

By Associated Press.]  
NEW YORK, May 15.—In the action of Sarah Branagh against Wm. P. Smith to recover an interest in the estate of the late A. T. Stewart in the Circuit Court, Judge Wallace this morning rendered a decision adverse to plaintiff, on the ground that she was a non-resident alien. He directed the jury to render a verdict for defendant.

#### Forest Fires.

By Associated Press.]  
BIG RAPIDS (Mich.), May 15.—From Manistee to Heron, on the lower peninsula, forest fires are raging. Up to date the loss is estimated at \$2,000,000, and it will probably be doubled unless checked by rain. The loss in the upper tiers far exceeds this estimate. Hundreds of families have been left destitute.

#### Poor Money.

By Cable and Associated Press.]  
BUENOS AIRES, May 15.—Gold further advanced yesterday and closed at 200 per cent premium. The Senate rejected a motion for the appointment of a commission to inquire into the condition of State banks.

#### Gravesend Races.

By Associated Press.]  
NEW YORK, May 15.—The weather outlook is of much interest to those assembled at the Gravesend racetrack today to witness the Brooklyn Handicap and other races. In the early morning hours it did look as though a shower might come, but as the day advanced and the sun showed itself through the haze, a shout of joy went up from a group of trainers who had gathered in front of the grand stand to watch their horses work.

Their joy was short-lived, however, for about 1 o'clock a slow, drizzling rain began to fall, with every prospect that it would continue through the afternoon.

The track before the rain was in as good condition as it was possible for human hands to make it, but nevertheless it was not fast, and the rain has made it slow. The top dressing of loam that it received lately has not become thoroughly packed, and next to the rails the track is quite deep. This will suit most of the horses that will go to the post for the handicap, and a great race is looked for.

A continuous line of carriages of every description, laden with men and women, crossed the Brooklyn bridge this morning bound for the racetrack. A number of "Tally-Hos," carrying gay crowds of people, attracted much attention as they drove through the "City of Churches."

It is expected that fully 30,000 people will see the great race.

The Brooklyn Handicap is the fourth event, and it is not expected that the horses will be sent off before half-past 4 o'clock.

Tenny wins the race by two lengths; Prince Royal comes in second, and Tea-Trail third. Time, 2:10.

The start was a good one and Burlington took the lead, closely followed by Russell, with Loantaka pressing on behind. At the quarter Russell led by a length and Nellie Bly had moved up to second place. The pace was hot to the half mile, Loantaka moving up again and running neck and neck with Russell. Castaway had also passed the leaders and at half ran third. They dashed around to three-quarters, Loantaka still running neck and neck with Russell, Once Again third and Tenny fourth. Around to the mile post Loantaka and Russell ran as though chained together, still neck and neck, but Tenny and Banquet were pressing them closely in the order named. In the stretch Judge Morrow came very fast, and passing the leaders, took first place. Tenny also let himself out a bit and took second place, still followed by Banquet half a length behind. All hands started to ride now and Tenny coming with a great burst of speed, passed to the front winning easily by two lengths. The second was very close. Prince Royal, who had run unplaced all the way around, made sports and wrestled the place from Tea Trail by a head.

#### Northwestern Situation.

By Associated Press.]  
CHICAGO, May 15.—The situation on the Northwestern Railway as affected by the discharge of all its switchmen and yardmen has developed no new features this morning. General Manager Whitman is constantly in receipt of telegrams from all points on the system, and without exception they report an encouraging state of affairs.

#### Drowned in the Dupeier.

By Cable and Associated Press.]  
ST. PETERSBURG, May 15.—A flatboat containing a number of workmen proceeding down the Pnapeier river came into collision with a steamer and the flatboat sank almost immediately, drowning 19 of its occupants. The captain of the steamer is blamed for the accident.

#### Assault on Deputies.

By Associated Press.]  
UNIONTOWN, May 15.—Hungarian strikers assaulted two Italian deputies at Leith this morning, beating them severely. The assailants then robbed one of the deputies named Tony of his revolver and watch, and \$100 in money. Both men were badly hurt.

#### Railroad Rates.

By Associated Press.]  
DENVER, May 15.—The Trans-Missouri Association has adjourned to meet at Kansas City on Wednesday next. The association considered the question of interchanged mileage tickets, but failed to arrive at any conclusion.

#### Bidder For Votes.

By Associated Press.]  
SPRINGFIELD (Ill.), May 15.—The Democratic bill amending the compulsory education law by striking out the provisions requiring teaching in the English language in parochial and private schools passed the House this morning.

#### Of Course.

By Cable and Associated Press.]  
ROME, May 15.—The Payfulla violently denounces the Louisiana authorities and condemns the New Orleans Grand Jury's reply to Consul Cortes letter.

#### Dead Woman Found.

Special to the GAZETTE.]  
SACRAMENTO, May 15.—A special to Beechey Colfax says: Wednesday evening a woman's body was found in the bushes one mile west of town by a farmer and his boy. The boy discovered a small tent and in it was the dead body of the woman. The coroner's jury was unable to identify the body, as no letters were found. On a piece of paper was some writing and figures, evidently addresses. The tent was made of light canvas and was just large enough to hold her lying down. An empty half-ounce bottle, which had contained laudanum, was found outside the tent. Her shoes showed no wear and pointed to the fact that she had either been driven to the neighborhood or had got off some night train and walked to the spot. Twenty cents were found in her purse. A pair of spectacles found showed her to be middle-aged. She is supposed to have been dead about a week, as her features were unrecognizable, owing to decomposition. Several San Jose and one San Francisco paper of April 16th were found.

#### A Fiendish Lover.

By Cable and Associated Press.]  
PARIS, May 15.—The police of Landres have arrested a man named Meunier for murder and other crimes. Meunier, who is an ex-officer of customs and a widower with two sons, courted a wealthy girl named Jack, who rejected him because he was poor. Meunier then engaged in a number of robberies and finally murdered a priest and his servant. Having got some money he renewed his suit but the girl's mother objected to the man's children. Meunier thereupon set fire to the girls residence, the occupants of which had a narrow escape, Meunier not being detected in any of these crimes. After another interview with the girl, who then seemed to be willing to marry him he smothered his eldest boy and finally shot and seriously injured the girl's brother, who had forbidden the proposed marriage. When arrested Meunier confessed to all but the double murder.

#### Nearly Lynched.

By Cable and Associated Press.]  
ST. PETERSBURG, May 15.—The Novoe Vremya, in an account of the attack on the Czarowitz, says the Japanese natives nearly lynched the assailants and the police had great difficulty in rescuing him.

BERLIN, May 15.—The latest report received by the Japanese legation here concerning the attack on the Czarowitz, is that he and Prince George were returning in cog from a place of amusement when they came in conflict with the police officers who asserted themselves too vigorously until the identity of the Princes was revealed. The Princes were without escort at the time. The slightness of the Czarowitz's wound is explained by the fact that Japanese policemen use blunt swords.

#### Anglo-Portuguese.

By Cable and Associated Press.]  
LONDON, May 15.—The draft of the Anglo-Portuguese agreement with reference to East Africa was signed in London. The news of the signing of the agreement produced an excellent impression here. Foreign merchants here propose to appoint three delegates, one French, one English and one German, to take action in common with the Portuguese committee on public debt.

#### Belgian Riots.

By Cable and Associated Press.]  
BRUSSELS, May 15.—There was renewed rioting in this city last evening, growing out of the action of the authorities in interfering with the workmen's demonstration. The police with drawn swords charged and dispersed a number of processions of workmen. A large number of arrests were made.

#### Rough on Rats.

By Associated Press.]  
AUSTIN (Texas), May 15.—Mrs. Heafsbeth, the wife of a highly respected citizen, attempted to poison her whole family by putting "rough on rats" in the soup. Mrs. Perry, her aunt, died in great agony last night, while Mr. Heafsbeth stands a chance of recovery. Mrs. Heafsbeth is detained.

#### Colliery Explosion.

By Cable and Associated Press.]  
LONDON, May 15.—A dispatch from Ashton-under-Lyne, (in Lancashire), says a terrific coal gas explosion has taken place at the Moss colliery, near that town. One man was killed and many seriously injured.

#### Ratifying Arbitration.

By Cable and Associated Press.]  
PARIS, May 15.—The Minister of Foreign Affairs presented a bill in the Chamber of Deputies ratifying the Newfoundland arbitration convention made with Great Britain.

#### Writ of Error.

By Associated Press.]  
WASHINGTON, May 15.—Justice Brewer of the United States Supreme Court, this morning allowed a writ of error to issue in the case of the contested Governorship of Nebraska.

## ACAPULCO VISITED.

### By the Rebel Steamer Esmeralda.

#### NO NEWS FROM THE CRUISER.

#### The Suspicious Steamer is the Mail Ship.

#### Secretary Blaine Has The Gout.

#### Esmeralda at Acapulco.

By Associated Press.]  
CITY OF MEXICO, May 15.—A dispatch received late last night from Acapulco says: The Chilean cruiser, Esmeralda, entered this port yesterday and sailed again to-day. Several of her officers were ashore and used the wires and made various inquiries regarding the action of the United States, showing they were informed that the cruiser Charleston had been sent in pursuit of the Itata. It is believed she steamed north to intercept the Itata and protect her, should the Charleston attempt to capture her. The officers who came ashore here were reticent, but from one of the sailors it was learned they expected to sight the Itata and act as her consort down the coast. The Esmeralda had a numerous crew, and, in appearance, they were veterans and will fight. The above dispatch is confirmed at the War Department, but the officers are inclined to be reticent. A prominent official said the cruiser was warned not to remain in port, as the Mexican government is not harboring insurgent vessels and did not recognize any other government in Chili than that of Balmaceda.

WASHINGTON (D. C.), May 15.—Same reply, "no news," was made by acting Secretary Ramsey this morning to the question as to whether he had heard from the Charleston or Itata. A long cable dispatch in cypher was received this morning, presumably from Admiral McCann at Chili. It is known at the Department that the Chilean insurgent cruiser Esmeralda put into Acapulco a day or two ago. She appeared there late in the evening and slipped out of the harbor and disappeared before daylight.

#### Suspicious Steamer.

Special to the GAZETTE.]  
SANTA BARBARA (Cal.), May 15.—There was an unknown steamer off the coast this morning acting in a peculiar manner. It was first observed at 9:45 o'clock, and was then going up the channel. She rounded the upper end of Anacapa Island and sailed along the island on the outside, then turned and stood out to sea. It was impossible to tell the size or rig of the steamer, as she was 20 miles away and only smoke could be seen.

HUENEME (Cal.), May 15.—A large steamer flying signals stood in close to this place this morning. As near as it could be made out it was the Pacific Mail steamer; after saluting she stood off, bound north.

SAN FRANCISCO, May 15.—It is now pretty definitely settled that the steamship which was signalled off Hueneeme in the Santa Barbara channel this morning was the Pacific Mail steamer San Blas, which put in to announce her arrival at that point.

#### Worthy Sire, Unworthy Son.

By Associated Press.]  
WASHINGTON, May 15.—Green B. Raum Jr., son of the Commissioner of pensions, has, upon request of Secretary Noble, tendered his resignation as assistant chief clerk of the pension bureau, and same was accepted. Secretary Noble learned upon what appeared to be perfectly trustworthy testimony, that Raum Jr. had been a party to irregularities and unlawful proceedings in connection with three appointments to minor positions in the pension bureau.

#### European Planners.

By Cable and Associated Press.]  
LONDON, May 15.—The Times believes the Russian government will withdraw £3,000,000 from London within the next month or two and that it is doubtful whether the Bank of England will be able to draw that amount from America. Besides which, adds the Times, there are strong probabilities of a partial failure of European crops, which would cause a drain of gold to America in the autumn.

#### Got the Gout.

By Associated Press.]  
NEW YORK, May 15.—Secretary Blaine is not so well this morning as he was yesterday. He is suffering from gout. Dr. Dennis said it would be impossible for him to leave before Monday or Tuesday next.

#### A Dead Forger.

By Associated Press.]  
NEW YORK, May 15.—It leaked out at closing time a loan, disclosed a number of forged receipts, drawn by M. Stone in his own name, for cotton supposed to be stored in the cotton warehouse of the American Dock and Trust Company on Staten Island. Stone was President of the American Dock and Trust Company, and is said to have forged a large number of certificates, besides those which were brought to light to-day and is said to have borrowed large sums on them from banks in this and other eastern cities. He died a few weeks ago and was supposed to be very wealthy. The loan in which the forged certificates were discovered to-day was pledged for \$40,000. At present the total amount of certificates outstanding cannot be ascertained, but is believed to be very large.

#### The Goat Blood Cure.

By Cable and Associated Press.]  
PARIS, May 15.—Prof. Burnheim has submitted his report to the Academy of medicine, regarding experiments made to cure tuberculosis by transfusion of goat's blood. The Professor, in this report, says fourteen patients have been treated by this system and that two of them in the last stage of anemia were cured. Ten of the remaining number, suffering from tuberculosis, the report adds, have greatly improved under the new treatment, and the last two, of the fourteen patients, both of whom were in an advanced state of consumption, died six weeks after receiving the first treatment of transfusion. Professor Burnheim declares the treatment has an important effect in the first stage of consumption, but adds it should not be used in the last stages.

#### Not Massacred.

By Cable and Associated Press.]  
SANTA BARBARA, May 15.—Dispatches received here from Manipur show that Chief Commissioner Quinton and officers, who lost their lives, were not the victims of a massacre. The evidence given at the trials recently taken place of several prominent Manipur insurgents captured by the British troops, proves the chief commissioner and his colleagues were beheaded by public execution under orders of the Manipur Major. These men were found guilty by a military tribunal which has been in session at Manipur.

#### Eight Hours Granted.

Special to the GAZETTE.]  
SAN FRANCISCO, May 15.—The Croft Mill has granted the eight-hour demand, and the men commenced work this morning. There are now three firms which have made the concession. The other two are the Golden Gate Planing Mill and the Dotty & Stirling Mill.

#### Atchison Statement.

By Associated Press.]  
BOSTON, May 15.—The Atchison March statement of the entire system, including the St. Louis & San Francisco, shows the net earnings to be \$808,000, a decrease of \$207,000. For nine months the net earnings were \$862,000, an increase of \$77,000.

#### Miners Compromise.

By Associated Press.]  
COLUMBUS (Ohio), May 15.—The machine miners and operators of Hocking Valley have reached a compromise for the coming year, whereby the old prices will be paid for all work except room turning, which advanced to 43½ cents per ton.

#### Indicted for Murder.

By Associated Press.]  
GREENSBURG (Pa.), May 15.—The Grand Jury, to-day, in the case of J. A. Loar and his deputies, charged with murder at the Morewood riot, returned true bills against all except Steve Cairns.

#### China Invited.

By Cable and Associated Press.]  
WASHINGTON, May 15.—The Department of State is officially informed of the acceptance by the government of China of an invitation to participate in the World's Columbian Exposition.

#### Bandit Killed.

By Associated Press.]  
CITY OF MEXICO, May 15.—Natividad Vallanueva, a bandit, was shot and killed in a battle with a posse near the city of Guadalupe. Before he fell he killed the Civil Judge.

#### Double Disaster.

By Cable and Associated Press.]  
LONDON, May 15.—In addition to the collier disaster at Ashton under Lyne to-day, a large cotton mill in the same town was almost entirely burned. Damage, \$145,000.

#### Glanders Epidemic.

By Associated Press.]  
MECHANISBURG (Ohio), May 15.—At Tradesville, about five miles south of here, the glanders is epidemic, and a number of horses have been killed.

Rufus Moore (colored) was hanged at Trenton, Ga., to-day. The crime for which he suffered the death penalty was the murder of Henry Slay in June, 1890. Five thousand people saw the execution.

Algeria is again devastated by locusts.

FURNISHING GOODS, HATS BOOTS AND SHOES.

## John Sunderland's

KEEP UP WITH THE STYLES! Don't wear suits that are years behind the times when you can get very good stylish suits of the latest pattern, perfect in fit, elegant in design, nobby in appearance, and latest out lowest possible prices.

I am now opening a large and well selected stock of

## Men's and Boy's Clothing,

AND GENTS FURNISHING GOODS.

Also a fine line of

### MEN'S NECKWEAR,

In all Patterns, Styles and Colors.

Men's Fine Overshirts, in Silk and Wool.

Latest Styles of Dress Shirts

Full Bosoms, and the STANLEY Overall, something new, and will be the rage this Summer.

### SUMMER COATS AND VESTS.

Running from \$1 to \$7.50 in price.

I claim to have the finest line of—

### HATS!

From a cheap straw to the finest beaver of JOHN T. STETSON & CO.'S make.

## IN BOOTS & SHOES

My stock is complete, consisting of the following:

Ladies' Misses' and Children's Fine French Kid, of the latest and most approved styles.

Copese Kid, Pebble Goat and Calf Skin in all grades.

Men's Fine Hand and Machine Sewed Boots and Shoes

Full Line of Ladies' Misses and Men's Tennis Shoes

Always on Hand.

Don't allow yourself to buy shoddy goods when you can get good goods as cheap.

Call and examine my stock; I've got what you want. If you don't see it, ask for it.

## SUITS MADE TO ORDER.

Country Orders Will Receive Prompt Attention.

## JOHN SUNDERLAND.

5 O'CLOCK EDITION

Put Together.

All small towns spend a good many precious moments in minding other folks' business. If a proposition is submitted that is calculated to be of benefit to the whole community while one person seems to profit more largely than the rest it is cried down and soon the people settle back into their sluggish ways satisfied. If one business man reaps a reward by judicious advertising, he at once becomes the target for his less prosperous neighbor. To sit round and growl about hard times and a scarcity of money, pulling to pieces all your more opulent neighbor succeeds in building up is not the way to make prosperous communities. This article does not by any means apply to Reno, although we have a very few chronic growlers in the community who are dissatisfied with everything everybody else does and throw cold water on every move that is made tending to better the condition of the whole country—themselves included. The people here are progressive and pull together pretty well, but let every man, woman and child in the town speak a good word for the place and try to look on the bright side of life instead of living in an atmosphere laden with discontent, jealousy and unhappy thoughts, and see how soon we shall feel the quickening. It takes all kinds of people to make a community, but did you ever know a town to become great and prosperous when one half of the people were dead set against the other half? In union there is strength, and if the business men of the place would go together as one man Reno would have a population of ten thousand in five years. The chronic growler who reads this will say what on I'd like to know? The GAZETTE will anticipate his interrogatory and answer it. Build up, build up your self and by that means assist your neighbor along life's rugged path; speak a good word for the town and tell the passing stranger of the superior inducement Washoe county affords for an investment of idle capital; let the world know that we are prosperous, contented and happy, and how long will it be before we begin to draw new blood from other sections less favored? How many years will pass before the condition of our contentment and prosperity will become known and people from other places begin to come in to share the good things of life with us? Washoe county to-day should be the home of thirty thousand people and if we pull together they will be here in a few years. The fact is illustrated daily, the merchant for instance who reaches out for trade and solicits the patronage of his fellow man is fore handed and well-to-do, while his neighbor across the way sits on a dry goods box in front of his place of business and complains of hard times. A well-worded, attractive advertisement in a wide-awake journal will usually bring trade and prosperity to those broad gauged enough to grasp it. Try the GAZETTE's plan of building up and see how much better satisfied you will be with the world and yourselves. Be game like Mark Twain's Tom Sawyer and not let the world know if you are not as prosperous as you would like to be. It will win in the long, hard pull up the stream of life.

ONE of the daily papers of Rome publishes in every issue the following editorial notice: For a report of a fight or fire in which one or more human lives were lost, we pay one lire and fifty cents; for a report of a suicide, one lire; for a report of an attempt at suicide, fifty cents; for a report of an accident at which a person suffered bodily harm, thirty cents; for reports of a murder, highway robbery, burglary and other happenings of this kind, we pay according to the importance of the event, but in no case less than five liras.

## SLUM SISTERS.

Women of the Salvation Army in the City of London.

The Terrible Scenes of Distress and Degradation Witnessed by Them in Their Visits Among the Poor.

One of our representatives, says the Pall Mall Budget, has made a personal inspection of the distress in east London in company with a couple of salvation lasses. The following is the report:

"My friends were not clad in their coal-scuttle bonnets and blue serge jackets, for these would be feathers far too fine for the slum brigade. Long experience in the huts and hovels of out-cast London has taught them wisdom; the slum dweller, if he sees fine feathers—and even the salvation bonnet is a fine feather to him—scented coppers, and thinks of making up a 'stunning story,' and the lasses, the 'sisters,' want truth and nothing but the truth. Therefore they don hideous hats and other ugly garments, and if you go with them you do the same.

"They turn into a back lane, down in grimy Shadwell, and knock at a door which looks battered and ill used. The windows are mostly broken but neatly mended with brown paper, for the army money is wanted for other things than home comforts in weather such as this, and this house with the rickety stairs and the clean, poor-looking back kitchen is the slum brigade's fortress. Thence the girls sally forth early and late, and make their way through the crowd of poor that stand around their door when they have said a cheering word to each of the hungry women and children and taken the addresses of strangers, for each single case where help is given is first investigated. The crowd then disperses, knowing that before nightfall they will at all events have some soup, some bread and cheese, and happily also some coal. On that hope they can endure starvation a few hours longer, and cheerfully they go home.

"The girls dive into the alleys briskly and in a business-like manner. 'Sister,' the little ones in the gutter say, and smile, and 'sister' the hobbling crones salute them as they pass.

"They think nothing of a three-mile walk to a hovel in some yard whence tidings of distress have reached them, and when they enter some filthy doorway the women from a dozen neighboring houses rush out to beseech them not to pass them over. Wherever they enter it is the same; want and starvation in their cruellest form stare no longer at the doors and windows, but are in possession and look as if they meant to stay.

"Three old women live in this cellar-like hole. 'If I had three half-pence,' whimpers the least infirm, who crouches on a deal box near the tiny fire, 'I could buy stock and sell some oranges. But we hain't a farthing. It was so cold I used the stock money, and now I owe her three weeks' rent.' And she points to a ragged bed in the corner, whence come unearthly groans. Thick darkness reigns around that bed, on which the 'landlady,' the woman to whom the ruins of furniture belong, has lain for weeks. No, nobody comes to see the three; neither of them can work, and since yesterday they have had nothing to eat. The third has gone out to pick up what she can in the gutters; the others wait and starve on, light-headed for want of food.

"Up the back stairs a large family—men, women and children—stand about the empty room. Everything is pawned and one is ill. They shiver with hunger and cold, and the sight of a ticket for food of the value of four pence lights up their faces into brilliant hopefulness.

"To the garret the parish doctor has refused to go. But the lasses go. A cloud of smoke meets them as they enter. Every pane of the small window is broken and mended with dirty rags; a heap of rags—a very small heap—lies in the corner and the fire, which is a small deal box. On it sits a creature that may have been a woman once, but to look at whom now is to turn away with a shudder. She is naked, with only a rag around her; her hair hangs over her face, the hands are like claws, and as you put your hand on the thin covering round her shoulders you can feel hard bones only, and the shivering creature grins and holds out her claw-like hands. 'Look at me—I have nothing to wear, nothing to eat; have you brought me something to eat?' Her sister, who shares this 'home,' is out on the only errand which drives these creatures out of their lair—the search for crusts and crumbs and cabbage leaves and orange peels.

"She, too, is light-headed and shrieks and grins and asks for clothes and bread, and the one idea which has remained in her head—that she must try not die of hunger. The two have been respectable women, taking in sewing, but the cold came and the furniture went piece by piece, and now they have neither strength nor clothes to go to work. They have become lower than beasts. The cold has done it."

**Bald Heads Increasing.**  
Bald heads, it appears, are becoming more and more common. In big cities where pulses of commerce and culture beat with intense force, one-half of the men at forty have heads as destitute of hair as a billiard ball. At fifty, cranial make in summer time excellent skating rinks for blue bottles, are the heritage of every third person out of four whose lot has cast them out of country life. As for the ladies, it is asserted that an even far greater proportion of women at similar ages have about as much of what Scripture calls their "glory" upon the attics of their persons as the summit of the Bunker Hill monument.

**Sleeping on the Stove.**  
Beds are still strange pieces of furniture in Russia and many well-to-do houses are still unprovided with them. Peasants sleep on the top of their ovens; middle-class people and servants roll themselves up in sheepskins and lie down near stoves; soldiers rest upon wooden cots without bedding and it is only within the last few years that students in state schools have been allowed beds.

## MISCELLANEOUS.

### Malaria

Is believed to be caused by poisonous miasms arising from low, marshy land or from decaying vegetable matter, and which, breathed into the lungs, enter and poison the blood. If a healthy condition of the blood is maintained by taking Hood's Sarsaparilla, one is much less liable to malaria, and Hood's Sarsaparilla has cured many severe cases of this distressing affection.

#### A Wonderful Medicine.

"For malaria I think Hood's Sarsaparilla has no equal. It has kept my children well right through the summer, and we live in one of the worst places for malaria in Maryland. I take Hood's Sarsaparilla for that all gone feeling, with great benefit." Mrs. B. F. Davis, Maryland, Cal.

#### Break-Bone Fever.

"My daughter Pearl was taken with dengue (or break-bone) fever 2 years ago, and my friends thought I would lose her. I had almost given up hope until she began to take Hood's Sarsaparilla. She took four bottles in four months, and gained 15 pounds. I thank Hood's Sarsaparilla for giving her back to me restored to health and strength." Julia A. King, Sherman, Texas.

**Hood's Sarsaparilla**

JOTTINGS.

Mrs. Gervaise Graham's famous hair restorer and dye, Oriental Hair Dye, Boonville Vegetable Hair Restorer and Harper's Hair Vigor for sale at Miss E. G. Gibbs'.

When carpenters help chips away to make things quite exact, it is remarkable, they say, to see his adze subtract. Dixon's pencils, C. Thurston's and a fine line of pens of all kinds.

"The ethics of your profession do not permit you to advertise?" "No," said answered the hungry young physician, "not when I was a student." Wood and coal supplied by J. P. Aitken.

"How did you get along with Miss Green?" "Why, I said nothing and she talked; at the end of the conversation she announced that we were engaged," and sent me to Richard Herz's for the ring.

On four seats of a railway car, amidst his traps the drummer sat, and wished he had but one seat more in which to place his high silk hat. A hot lunch and a schooner of beer at Jake Becker's for 15 cents.

A sure sign—Mrs. Sharpey (at a hotel)—That couple try to act as if they had been married for years, but I know they are not. Mr. Sharpey—Guess not. Mr. Sharpey—Yes they are. He gave her the tenderloin of the steak. That's the kind of steaks you get at the Riverside for your wife.

Hay Fever and Catarrh.

Those afflicted with either or both troubles will appreciate this letter from Joshua Harvey, of No. 3010 Elm Avenue, Philadelphia, Pa.

"I have used Alcock's Porous Plasters for thirty years, and have always found them efficacious in coughs, colds and pulmonary complaints, rheumatism and pain in the back. I also was subject to violent attacks of catarrh and hay fever; to cure this I cut a strip sufficient to cover the forehead all over and applied it on going to bed. Sleep well and got up with a clear head and nose stopped running, eyes bright, and all pain in the head and nose gone. Sometimes I am attacked with extreme hoarseness, but always relieved by Alcock's Porous Plaster around my throat."

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in Consumption. My doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles, it has cured me. I thank God I am now a well and healthy woman." Trial bottles free at Wm. Pinniger's drugstore, regular size 50 c. and \$1.

A Sure Cure for Piles.

Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blood, bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs tumors, allays itching and effects a permanent cure. Druggists or mail, treatise free. Bosanko, Piqua, O. Sold by S. J. Hodgkinson.

Good Looks.

Good Looks are more than skin deep, depending upon a healthy condition of the vital organs. If the liver be inactive, you have a bilious look, if your stomach is disordered you have a dyspeptic look and if your kidneys be affected you have a pinched look. Secure good health and you will have good looks. Electric Bitters is the great alternative and Tonic acts directly on these vital organs. Cures Pimples, blotches, skin eruptions and positively cures piles, and you pay for it. It is guaranteed to give perfect satisfaction, or money refunded. 25 c. per bottle, 50 c. per box. For sale by Wm. Pinniger.

Almost Crazy.

With headache and yet immediate and complete relief was obtained by using Cephaline, the latest and greatest headache remedy known. A statement confirmed by thousands. At all druggists.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, and you pay for it. It is guaranteed to give perfect satisfaction, or money refunded. 25 c. per bottle, 50 c. per box. For sale by Wm. Pinniger.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used for children's teething, it soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

THE REV. GEORGE H. THAYER, of Bourbon, Ind., says: "both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." For sale by S. J. Hodgkinson.

ARE YOU MADE miserable by Indigestion, Constipation, Headache, Loss of Appetite, Yellow Skin? Shilo's Vitalizer is a positive cure. For sale by S. J. Hodgkinson.

WHY WILL YOU cough when Shilo's Cure will give you immediate relief. Price 10 cents, 50 cents and \$1. For sale by S. J. Hodgkinson.

SHILOH'S CATARRH REMEDY—a positive cure for Catarrh, Diphtheria and Canker Mouth. For sale by S. J. Hodgkinson.

"HACKMETACK," a lasting and fragrant perfume. Price 25 and 50 cents. For sale by S. J. Hodgkinson.

THE STORY DENIED.

The Contract for the Deep Creek Railroad Not Let Yet.

The Salt Lake Tribune takes back all it said about the contract being let for the building of 200 miles of the Nevada Air Line Railroad. A reporter got at the bottom of the cause for the statement and tells it as follows:

L. C. Wilson, who gave the statement of the contract Wednesday, is a young man who started from New York to visit friends in Kansas. On the cars at Jersey City he found Mr. Keating, who seemed either intoxicated or drugged. He showed Mr. Wilson his watch chain, said he had been robbed of his watch and \$400 and asked Wilson to look after his papers, etc. In the morning, in Buffalo, Keating asked Wilson what he was doing and if he would not like a position as his secretary. He said he would and Keating gave him a written contract for a certain salary for twelve months, told him to go at once to Salt Lake and he would join him in a few days, and the work on the road would begin.

Keating had talked with Mr. Bacon about a contract, but Mr. Bacon had told him he was not ready to make any contract, but hoped to be soon. The man was evidently drugged, and the young man here is in a most uncomfortable situation. Editorially, the "Tribune" says: "We believe the road to Deep Creek will be begun before many days, and the importance of the enterprise should be comprehended at once by the people of this city. We tell them that it will be such an advance to business here, such a mighty determining factor in the future of the city, that within a year it will amount to almost a transfiguration. It will bring thousands of people who are not now here to the support of the city, to add their money to the money of the city, their enterprise to the enterprise of the city, their trade to the trade of the city, their wisdom to the wisdom of the city, and the result will be increasing hope, increasing business, increasing people, increasing prices, increasing faith."

We do not expect that the road will stop when two hundred miles shall be built. Railroad companies are like individuals, they are mostly selfish, and when it shall be shown that in five or six months it is impossible to build a road through a region which will return to the road an interest equal to 25 per cent on the capital, the road will not be stopped. Men's ideas expand as work progresses under their eyes. The dream of the Central Pacific company when they began work, was to get a railroad up to Dutch Flat, sixty miles from Sacramento. When they got the railroad to Dutch Flat their dream was to span the continent. And we suspect that when the road shall be finished, two hundred miles west of this city, and the owners shall see how easy the thing, after all, was accomplished, and how magnificent the results will have proved to be, their minds will expand and they will say: "Why, it is but a step straight ahead to San Francisco Bay; it is but another step to bend southward to Los Angeles and San Diego. And we predict that if this road shall be started and completed 200 miles, within three years one terminus of it will be on San Francisco Bay, the other will command the southern trade to and from Los Angeles and San Diego."

THE BREYFOGLE.

Not a Poor Man's Paradise Until the Rich Ones Open It.

The Walker Lake Bulletin gives Breyfogle a black eye in the following. It says: A prospector just from Breyfogle passed through Hawthorne yesterday. He says that the new country is undoubtedly mineral bearing, but that a poor man can do nothing there. The mines are undeveloped, and it will require capital to open them up. There are three "pretty good prospects." The ledges are from eight inches to six feet wide, and average about \$60 per ton in gold. There are four saloons and two stores at Breyfogle. About 1,000 men, miners, prospectors, etc., are already there, and our informant thinks it will be a matter for many of them to get away.

BRITISH GOLD IN INYO.

An Important Lead Made of Inyo County Property.

The Walker Lake Bulletin says: A contract has just been signed by H. A. Herbert, the Irish capitalist who recently visited the coast, and the Inyo Land and Water Company, arranging for the sale of 15,000 acres of land and ditches, with a capacity of 15,000 inches of water. The price which Mr. Herbert will pay for the property is said to be in the neighborhood of \$300,000. The arrangement was concluded last Friday in San Francisco by Tremor Coffin of Carson, Nev., for the land company and Colonel William J. Sutherland, President of the Holmes mine of Candelaria, for Mr. Herbert.

Sugar Beet Experiment.

The Central Nevada says: J. A. Blossom is preparing to seed an acre of land on his ranch to sugar-beet obtained of Regent George who is taking much interest in the Agricultural Experiment Station, connected with the State University at Reno. I. Smelser has also been furnished with seed for half an acre. These two tests will be made of the adaptation of the climate and soil of Central Nevada in the production of the sugar-beet.

Home Industry.

The Central Nevada says: A creamery has been opened on the Blossom ranch, and for the first time in the history of the town sufficient butter has been made at home to supply the local demand. Two men are employed milking and breaking heifers. This is a commendable effort to make this section self-supporting.

Prisoners En Route.

Sheriff Cady of Lassen county came in from the north yesterday, having in charge Dixon and Sylvester, the recently convicted horse thieves. The officer took the 4:30 train with his prisoners, bound for San Quentin where they are to be put in seven years at hard labor.

CARSON SCHOOL EXCURSION.

The Teachers and Students Visit the School of Reno.

At 9 o'clock this morning a special V. & T. train arrived from Carson bringing many of the teachers and about 125 of the scholars from the Carson High Schools, on an excursion and visit to the schools of Reno. The excursionists were in charge of

PROFESSOR H. H. HOWE.

The principal of the Carson public schools, a position which he has filled for so long that the memory of man runneth not to the contrary. Professor Howe has the well-earned reputation of being one of the leading educators of the State, and he has undoubtedly sent on to the higher institutions students of as high a grade of excellence and well grounded in the preparatory branches as any high school graduates in the land. He was accompanied on this excursion by the following teachers from the Carson schools, viz.: Misses Kate Bardenwerper, Annie Martin, Addie Morton, Laura Billings, Bertha Wagner, Clara Wasson, May Gilroy and Mrs. M. L. Brunner, and also by the janitor of the High School, Mr. Dobbie. The students, to the number of about 125 young men and women, boys and girls, were all members of the Carson High School, and it is with pleasure that the GAZETTE records them the praise of being not only a handsome looking body, but also the most orderly and

WELL-MANNERED STUDENTS.

That ever visited Reno. Professor Howe, with his characteristic modesty, had advised Professor Bray to avoid all reception ceremonies as the visitors desired to trouble no one, and in other words, "go it on their own hook." However, Professor Bray and State School Superintendent Orvis Ring were present on their arrival, and after a brief consultation, the visitors quietly took up a line of march and visited first the Riverside school and then the Central school, where they were entertained with songs and recitations until about the noon hour. They were then taken to the Arcade Restaurant and served with a lunch by Jack Godfrey of the Palace. After this they visited the University, Asylum, and other places of interest. The day was one of spring time beauty, pleasantly warm, with bright sunshine and just a few fleecy clouds in the sky to flick the hills with passing shadows. Trees and plants and shrubs were clothed in beautiful tints of green, and the time could not have been more aptly chosen for an enjoyable visit. All the visitors seemed happy, and at 4:30 o'clock took the return train for home, well satisfied with their excursion to Reno, and taking along with them copies of the first edition of the GAZETTE containing the above account of their trip.

SUGAR BEET CULTURE.

Climatic Conditions Favorable to Their Growth.

Experience has shown that the sugar beet reaches its highest development in north temperate latitudes. So far as the production of the beet with high tonnage is concerned, it is found that it will grow far to the south, but beets grown in such localities, upon the whole, are less rich in sugar and less suitable for the manufacture of sugar than those grown further north. It must be remembered, however, that the expressions north and south do not refer to any absolute parallels of latitude, but rather to isothermal lines, which in many cases run obliquely to the parallels of latitude and in some cases cross them almost at right angles. As a result of many years of careful experimentation, it may be said that as far as temperature alone is concerned the sugar beet attains its greatest perfection in a zone of varying width through the center of which passes the isothermal line of 70° F. for the months of June, July and August.

ELKO ITEMS.

A Little Blaze Sunday Did Some Damage.

The Independent has the following: J. R. Bradley passed through to-day en route to San Jacinto, Cal., where he has been called to the bedside of his daughter, Mrs. Frank Glenn, who is not expected to live.

Dan Ross of Tuscarora came down by stage Saturday. He was accompanied by two small children of U. W. K. Henderson, in route to Reno, for which place they left yesterday morning to attend school.

A fire occurred in Elko on Sunday last which, however, did no great damage, only destroying two small frame buildings. But for a time an entire block was threatened, and its destruction was only prevented by very hard work.

From the Wilderness.

The Walker Lake Bulletin says: The Hawthorne exploring expedition into the Breyfogle country, consisting of Messrs. Laws, Forbes, Hart and Suman, has been heard from. A note was received the other day from Mr. Laws. It is dated at Oasis and reads: "We are just breaking camp. All well. At this moment Senator Forbes is digging the coagulated bacon grease out of the frying pan, Suman is stitching a rent in his overalls and Hart is watering the mustangs. Our horses are beautiful, blistered, but we will get there if it takes all summer. More anon."

Deep Creek Mines.

Reports from the Deep Creek mining region continue to be of the most favorable character and there is now no reasonable doubt but what in due time the developments will result in establishing prosperous mining camps all through that section. The discoveries so far all lie in Utah, but they are just over the Nevada line, there is no doubt but mines equally as good will be opened within our borders in that vicinity.

The Citrus Belt.

The Walker Lake Bulletin is toothing its horn over the railroad park of cottonwood trees there as follows: Hawthorne is at this season of the year, without doubt, the prettiest village in the State of Nevada. Locust trees are now in bloom and the rose buds are opening.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder

ABSOLUTELY PURE

THE NICARAGUA CANAL.

Warner Miller Enthusiastic Over His Pet Canal Project.

Warner Miller has returned to New York from his trip to Nicaragua and has much to say of the enterprise there inaugurated.

Lake Nicaragua, Mr. Miller describes as a beautiful spot. It is 100 miles long by 65 miles wide. It is surrounded by lofty mountains, and the land is something beautiful to view. Two magnificent extinct volcanic cones rise to the height of 5,000 feet at the very edge of the lake.

The region is partly cultivated, cocoa, oranges and coffee being the principle staples developed.

The whole commercial world, Mr. Miller said, is now aroused to the necessity of having the Nicaragua canal constructed. It will be built in six years. Seventy-five million dollars capital will be required. So far, between \$4,000,000 and \$5,000,000 has been advantageously used. The harbor of Greyport, which blocked shipping by a huge sandbar, has been opened. That was the first and chief obstacle to be encountered.

Secretary Tracy told him only the day before at Washington that the canal must be built or the United States must have two navies, one on the Atlantic and the other on the Pacific. The Secretary told him that if the canal were open he could throw the entire West Indies squadron down to Chili in the event of a war within forty-eight hours. At the present time he could hardly get them there at all, certainly not quickly enough to be of service in the event of speedy war.

RENO, NEBRASKA.

Mail Intended For This Place Goes There.

Postmaster Kraus received the following letter from the Postmaster of Reno, Nebraska this morning, which indicates that two towns of the same name rattle the brains of the postal clerks:

To the Postmaster, Reno, Nevada

Dear Sir: Do the following named persons get mail from your office: R. L. Fulton, Mrs. Charlotte Frogley, Frank J. Frey, C. Lemery, J. K. Hawkins, H. P. Kraus, C. A. Thurston, Lieutenant J. M. Neall, Rev. E. Van Deventer.

There is mail here for those named. I am J. Tasscoy, Postmaster, Reno, Nebraska.

A CHANGE.

J. S. Shoemaker and Family to Take Up a Residence in Aberdeen, Washington.

Night before last J. S. Shoemaker and John Shoemaker, father and son, accompanied by Miss Gertrude Shoemaker, departed for the State of Washington, where they go to take up a permanent residence on the timber lands near Aberdeen. Mrs. Shoemaker will follow them as soon as she settles up some business left behind. Mr. Shoemaker has lived in Reno many years, in fact, has raised his family here, and the GAZETTE regrets to record his departure. It hopes the change will prove a profitable one for Mr. Shoemaker, but thinks he has left a better place than he has gone to.

Good For Snake Bite.

Jose Chavez, ten years old, was bitten on the end of a finger by a rattlesnake at Gila City last Thursday. The flesh around the wound was cut away, the finger corded near the hand and the child was in considerable agony. He was put on the train and sent to Yuma, where the doctor applied such remedies as the case demanded. Although an hour and forty minutes had elapsed from the time the lad was bitten, the case yielded promptly and the boy is well. The snake was 4 ft. 6 in. in length.

San Francisco Meat Market.

Following are the rates for whole carcasses from slaughterers to dealers: BEEF—First quality, 66¢; second quality, 64¢; third quality, 62¢. PORK—Quotable at 56¢ for large and 54¢ for small. MUTTON—Quotable at 75¢ for 10 lb. LAMB—Spring, 80¢. PORK—Live Hogs, on foot, grain fed heavy, 48¢; light, 55¢; dressed Hogs, 52¢.

Chasing Defeat to Victory.

The genius of Sheridan at Winchester changed defeat to victory. So when feeble adversaries in the shape of inefficient remedies fail to stay the progress of that obstinate and malignant foe, malaria, Hostetter's Stomach Bitters turns the tide—drives the enemy back. Nothing in nature is an opponent of every form of malarial disease. Chills and fever, dumb ague, bilious rheumatism and ague cake, matters not one and all are extirpated by the Bitters. To take a course of the great purifier is to insure a permanent cure. Remember, too, that the Bitters is an eradicator of liver complaint, rheumatism, cholera, kidney complaints and dyspepsia.

BREVITIES.

Local and General Intelligence.

The overland express was about 45 minutes late this morning.

John Belz keeps his bath rooms clean and inviting and employs none but the most artistic barbers. Go there if you want satisfaction. mfw

"That actor is pretty prominent on the bill boards," remarked a guest at the hotel. "Yes, but very obscure on the board bills," replied the landlord, as he dropped in Marcus Frederick's for a good cigar.

The expected has happened. A Washington woman has been almost smothered by having her folding bed close while she was asleep. It was quite unexpected, and is probably the first case on record where a woman was "shut up."

A good appetite is essential to good health, and loss of appetite indicates that something is wrong. Hood's Sarsaparilla creates and sharpens the appetite, assists the digestive organs and regulates the kidneys and liver. Take Hood's Sarsaparilla this season. Sold by all druggists.

The lowest rate on record, 5c a bushel, is being charged for carrying wheat from Chicago to New York. The train is taken by lake to Buffalo, thence to tide water by the Erie Canal. The lake boats get 15c, the Buffalo elevators 5c and the Erie Canal boats the remainder.

Accommodating the Boys.—"I see they talk of shortening the college course." "Do they? Too much for the boys, eh? What are they going to make it a half-mile or three-quarters?" And he stopped to inspect the stock of neckties, scarfs and four-in-hands at John Sunderland's.

PERSONALS.

Mrs. Seymour Bryant left for California last night.

Enoch Morrill was a passenger for Butte county, Cal., last night.

J. T. Davis arrived from the Mound House last night on his way to Grass Valley.

Mrs. J. J. Linn, accompanied by Miss Paul of Hamilton, left last evening for San Francisco.

Clay Taylor, the bright young Shasta lawyer, who has been at Susanville engaged in the prosecution of horse thieves, came in from the north yesterday, and spent the day in Reno.

Bad Odor.

Caldwell (Liberal) has called the attention of the House of Commons to the fact that a number of the members was suffering from influenza, and said that it was probable they owed their sickness to the multitudes of microbes pervading the Houses of Parliament. He said he had given orders to have every room in both houses fumigated during the Whitsuntide holidays.

Perhaps after firing out Captain Verney there will not be such multitudes of microbes.

THIRTY YEARS' PRACTICE.

A Letter from an Eminent Physician.

MR. EDITOR: At the risk of incurring a proprietary preparation, I have a few words in favor of a new laxative principle. But first, how I came to discover it. A patient asked about taking Jost's Vegetable Sarsaparilla. As sarsaparilla usually contains mercury or iodides I objected, and asked for the formula, which finding purely vegetable, and so mild as to be to my mind almost too good, I consented. Imagine my astonishment when perfect laxative action was reported. It has two great points. First, being purely vegetable, it is free from mercury, not cumulative in the system, being easily carried off by the digestive processes; and second, it is effective with a less quantity of the cathartic principle than has hitherto been attainable. It in this respect ranks as a discovery, and approaches the ideal, viz.: the least medicine consistent with the greatest good. It harmonizes natural laxative action and perfect safety, and should interest both the public and the profession. A COPY RECEIVED OF THIRTY YEARS' PRACTICE. San Francisco Examiner, March 10, 1890.

The Problem Solved.—An Unrivalled Blood Purifier.

Found at last in Hibbard's Rheumatic Syrup.—A remedy which expels all poisonous matter and taints of disease from the blood. A well known citizen of West Lebanon, Ind., testifies to its value. GENTLEMEN: I state my wife has received greater benefit from Hibbard's Rheumatic Syrup than from any medicine she has ever taken. We have used six bottles, and find it the best family remedy and the greatest blood purifier we have ever used. It is truly a life-saver. It is claimed to be by its founder. Yours truly, F. W. WALKER, West Lebanon, Ind. Sold by S. J. Hodgkinson. Prepared only by the Charles Wright Medicine Company, Detroit, Mich.

Spring Fever.

At this season of the year the most vigorous and hearty people often have a feeling of weariness and listlessness, and an ambition to do anything, and many break out in pimples and boils. What you require is a mild tonic medicine that will act gently on the liver and blood, and for this nothing equals Dr. Gunn's Improved Liver Pills. They give an activity to the liver, purify the blood and by the mild tonic action, new vitality and strength to the whole system. Sold for 25 cents a box by S. J. Hodgkinson.

PALACE DRY GOODS HOUSE.

PALACE DRY GOODS AND CARPET HOUSE

GRAND OPENING!

Spring and Summer Dry Goods, Fancy Goods, Carpets, Linoleums, Wall Paper, Etc.
